

SW349 - IT Manager/Supervisor

IT professional with 20 years total experience and 18 years in banking. Looking for IT Manager/Supervisor role. Ability to be a one man IT department or lead a support staff. Experienced in all areas of community banking. Familiar with working with FIS core using Horizon product. Also worked with FISERV. Able to support all areas from firewall down to workstations. Excellent customer service skills. I love banking and helping people and would love to talk about how I could benefit your financial institution and save you on your outsourced IT costs. Located in the Northwest Georgia area.
