

## **Mauldin & Jenkins Named on Accounting Today's Top 100 Firms List, Climbs Six Spots**

**Atlanta, GA, March 23-** Mauldin & Jenkins, LLC, an award-winning accounting, advisory, and consulting firm, is thrilled to announce it has been named one of Accounting Today's Top 100 Firms for its 28th year in a row. Climbing six spots, the Firm comes in at number 77.

The Firm was also named on the Regional Leader list as a Top Firm serving the Southeast. The average growth rate for the Regional Leader list was up five percentage points from last year's report, and 16 of the 29 firms, including Mauldin & Jenkins, reported double-digit growth.

"It is an honor to be recognized by Accounting Today," comments Managing Partner Hanson Borders. "Given the unique challenges we have faced over the past two years, we are proud that our commitment to client service has allowed us to sustain high growth. Our investments in our people have enabled us to not only meet our clients' needs, but also exceed their expectations by providing new service offerings tailored to their specific circumstances."

Accounting Today surveys approximately 300 tax and accounting firms from all over the country to produce its annual Top 100 Firms report of the leading accounting firms based on the previous year's revenue. Unlike previous years where the lists were limited to only CPA firms, this year professional services firms that offer at least some accounting services were eligible for the ranking. This change is a direct result of shifts editors are seeing in the market.

According to the report, many of the top firms attribute their growth to M&A. Firms are merging not only to achieve growth, but to also add specific service lines, geographic areas, and talent to their teams. The development of staff is also a contributing factor. By encouraging current staff members to develop specialties in specific areas, firms are able to offer invaluable expertise.

The threshold to join the Top 100 begins at \$47.30 million in net revenue. Subscribers can view the full list of firms [here](#).
